

Body System Presentation

Your task

Become an expert on a randomly selected body system and present your findings to the rest of the class in a way that is relevant, educational and interactive.

Criteria

- ☐ Must be roughly 15-20 minutes in length.
- ☐ Must include diagrams, pictures or chart to aid your lecture.
- ☐ Must include a 2-4 page handout that serves as a review for the class. This must be submitted a day prior unless you want to do your own photocopying (need 28 copies).
- ☐ Must include the vocabulary that we have covered in class and a review of the major organs involved.
- ☐ Must be interactive and provide the rest of the class with something to do (ie. worksheet, quiz, demonstration, etc). This should be no longer than 5 minutes.
- ☐ Include 2-3 diseases or ailments associated with that body system with an explanation of how it occurs.

Marks

Presentation (15 marks)

Flow, coherence, knowledgeability, visuals, dynamic.

Information (20 marks)

Accuracy, insightfulness, visuals, key ideas, topic covered.

Interaction (15 marks)

Engaging, challenging, and educational (not only did you teach, but we learnt)

Summary (10 marks)

Selective, brief, comprehensible, comprehensive.

Total of 60 marks

Useful Tips

*Think of yourself as the teacher for 20 minutes, what do you need to do to make sure your students remember what was said?

*Provide your students with something to look at, don't just talk for 20 minutes.

*Break up the task. There are at least 4 of you, use everyone effectively. Perhaps have someone create the summary, someone create visual aids, someone make it interactive etc.

*Start early, finish early. It is better to get it out of the way quickly and then practice going over the presentation to make sure it flows nicely. Don't wait until the day of your presentation to start practicing.
